

Become an EPIC Member!

Executives Partnering to Invest in Children (EPIC) enables the business community to build the workforce of tomorrow and to support the workforce of today. **EPIC is the business community's early childhood voice**, helping develop and then support practical public policy solutions. In 2020, EPIC will be pushing for expanding preschool, enabling child care providers to manage their real estate costs so that they can afford to pay the wages necessary to attract and retain qualified workers, and building the child care work force.

Network and Executive Members join a prestigious group of powerful business leaders and support EPIC's important day-to-day work including raising awareness of the importance of early childhood experiences and early literacy, championing new policy solutions, and providing tools and innovative strategies to help businesses support the development, recruitment, and retention of employees.
