EXECUTIVES PARTNERING TO INVEST IN CHILDREN

EPIC™

COLORADO Department of Early Childhood
CDEC

THE EMPLOYER BASED CHILD CARE DESIGN LAB

Helping Employers Tackle the Child Care Challenge. Together.

FINANCIAL MODELING

EPIC breaks down the child care business model so key decisions are informed and well supported with real data.

TAILORED TECHNICAL SUPPORT

Every project is unique. EPIC considers the priorities and gaps, connecting employers with resources, knowledge, and confidence to move forward.

COMMUNITY CONNECTIONS

The Design Lab connects participants with other business leaders who have both led successful projects and are also engaged in a similar process, lending important partnerships and connections to the project.

"We came to the Design Lab with a vision and nothing else. We had no idea where to start with our planning. The Design Lab helped educate us in every step of the way. It sets up entities for success if you want to see your vision come through."
